museum night amsterdam 2017:

casting jesus christian jankowski, 2011

In *Casting Jesus* we see 13 actors compete to play the role of Jesus in a game show-like format. A jury evaluates the actors' performance of various tasks, such as the breaking of bread, performing a miracle, carrying a cross, and dramatic declamation of a favourite quote from Jesus. As the film progresses the jury gradually leans towards a single finalist. *Casting Jesus* questions the artistic representations of Jesus today and how this image is translated into modern media.
